

Product Presentation

Concrete Quality

The ultimate solution for the concrete industry!

Materials, testing, QA/QC & mix designs

Easy to use - Professional results

Learn, share information & expertise

Try it for free, no obligations!

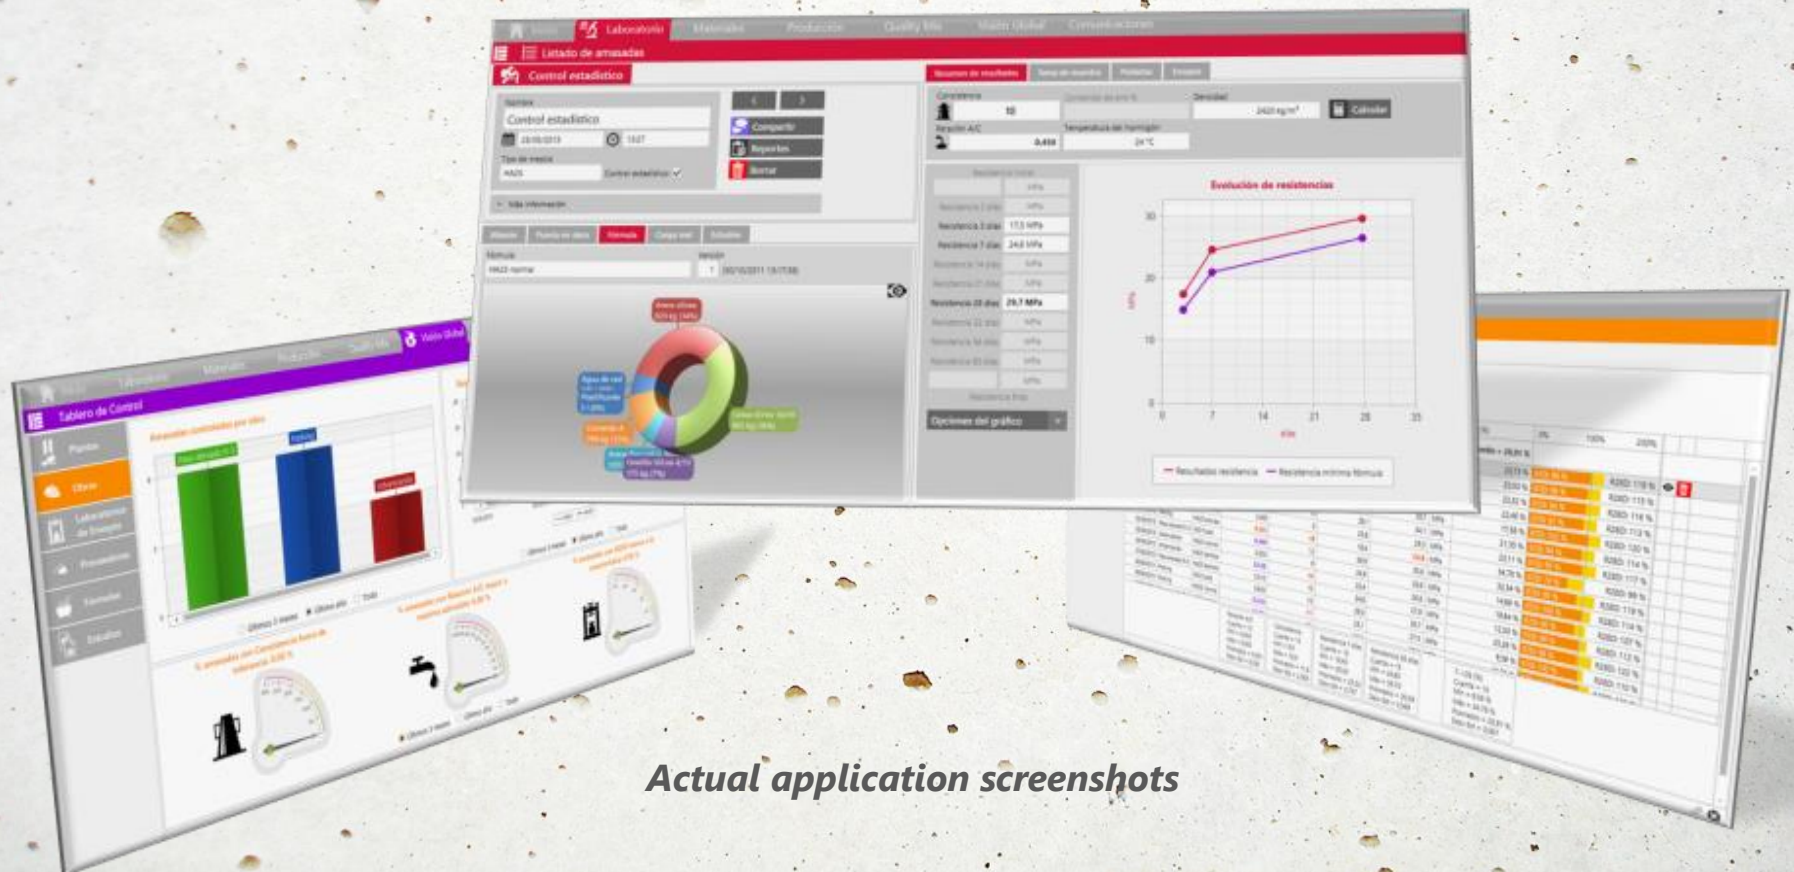

Concrete Quality

Software for Concrete QA/QC & Mix Design

Easy and comprehensive

- ✓ Concrete Quality is the most intuitive software for concrete management
- ✓ User-friendly design, flexible and powerful
- ✓ Store information in a real database, available online & offline
- ✓ Use the most advanced analytic tools and make the most out of your data

Actual application screenshots

Focused and Flexible

A must-have tool for the concrete industry

Concrete Quality is highly recommended for

- ✓ Ready-mix concrete batching plants
- ✓ Precast concrete factories
- ✓ Quality Control laboratories
- ✓ R&D laboratories
- ✓ Raw materials suppliers: aggregates, cement, admixtures, etc.

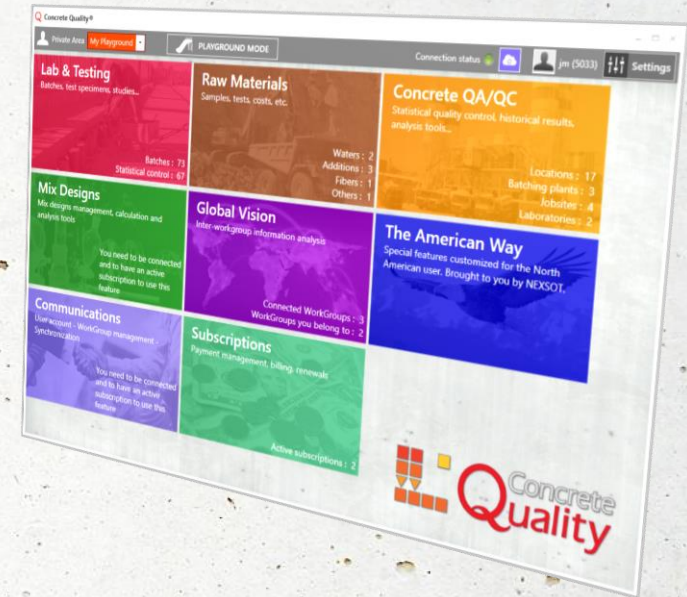

For concrete specialists, by concrete specialists

Concrete Quality is the perfect tool for

- ✓ Quality Managers
- ✓ Lab Managers & Lab Technicians
- ✓ Consultants
- ✓ Researchers

Flexible and global

- ✓ Standard independent, use current or old standards, local, national or foreign ones
- ✓ Metric and Imperial units with built-in conversion
- ✓ English, French and Spanish translations

The software manages...

Raw Materials

Store all your raw materials, sampling and test results in a single database. Your information neatly organized and always available.

With Concrete Quality you can receive test results from your suppliers directly in your database.

No more manual data entry!

Concrete QA/QC

Keep all the relevant information about your production control and analyze it with versatile and powerful, yet easy-to-use tools.

Analyze various statistical indicators without effort or special configurations.

You won't need a spreadsheet ever again!

Mix Design Calculations

A specific module that helps you calculate your mix designs according to your needs, guiding you in every step of the design process.

Make the most out of your raw materials, reduce costs and increase customer satisfaction.

Adapt your mix designs to be successful in every situation.

Testing Lab + R&D

Manage all the information you can imagine about your concrete and its tests in an easy way.

Create studies to perform benchmarking tests and generate reports with your conclusions quickly and without effort.

R&D management has never been so easy!

Concrete Quality can be used everywhere!

**No matter where you are in the world,
Concrete Quality adapts to your local needs.**

✓ **Standard Independent**

- Create tests and mix designs that comply with your local standards
- You can define your own standard's requirements
- Work with current or old standards
- Standard-specific features available with optional subscriptions

✓ **Any unit system**

- Supports metric, imperial (US) and imperial (UK) units
- Can use mass and volume units from any system

✓ **Full translations**

- Available in English, Russian, French and Spanish
- All translations by native speakers
- More translations coming soon

✓ **Connect everywhere**

- Uses your standard internet connection for special services
- Connect at your office, on site, wherever you travel or at home

Concrete Quality is the only application that connects you with your customers, co-workers and suppliers...

...without the need of your own servers or any configurations: send and receive information with your standard internet connection, with total security.

- ✓ **Work offline with a local database**
 - Maximum speed for data access, searches, queries, etc.
 - Your information is always available
- ✓ **Connect to our servers to share data**
 - Synchronize and share data for all users in your company
 - Flexible and intuitive permissions system
 - Share information in-house and with other companies
- ✓ **Automatic cloud backup**
 - The Synchronization servers keep a backup for all your data
 - You can download all your information into a new computer if you need to
- ✓ **Total Security**
 - All communications are encrypted and double checked for user authentication (transport + message authentication)

^a **REVOLUTIONARY** ^{way} ^{to do} **BUSINESS**

- ✓ **All basic features are free to use, forever**
- ✓ **All updates are free, forever**
- ✓ **Pay for optional services only when you need them**
- ✓ **Zero license fees= no investment = no risk!**
- ✓ **Short and affordable subscriptions: try before you buy**
- ✓ **No minimum subscription time and zero cancellation cost**
- ✓ **Direct download and easy to install**
- ✓ **Suited for small and big companies: no users limit**
- ✓ **Import your data from any legacy system**

- ✓ **Subscriptions are pre-paid and per user**
- ✓ **You may pause and reactivate your subscriptions at any time without penalties**

Subscription Plans

Subscriptions offer access to special services and features.
There's a plan suited for every user profile.

Technician

**Data synchronization +
mobile access +
basic reporting**

The features everybody
needs

Supervisor

**Mix design optimization +
statistical tools +
data import**

Includes all Technician
features

Expert

**Local standards +
audits + advanced
reporting & tools**

Includes all Technician &
Supervisor features

Localized Features

The Expert Plan includes localized features, created with the support of our local partners, merging technology with local expertise.

Expert

Local standards +
audits +
advanced reporting & tools

Includes all Technician &
Supervisor features
